

We recommend that the customer fully charge the car before using it.
During using, if you hear the continuous buzzer of the car buzzer, it means that the car battery is not enough.

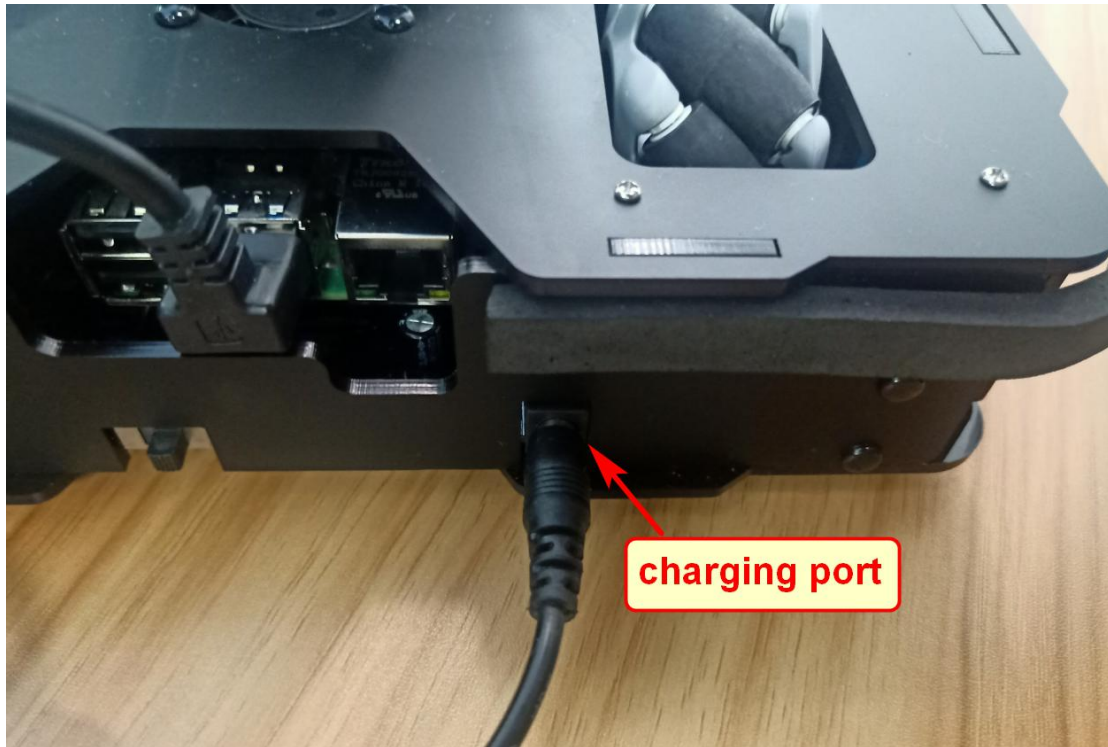

There are two ways for charging.

Method 1:

1) Insert battery into expansion board. As shown below.

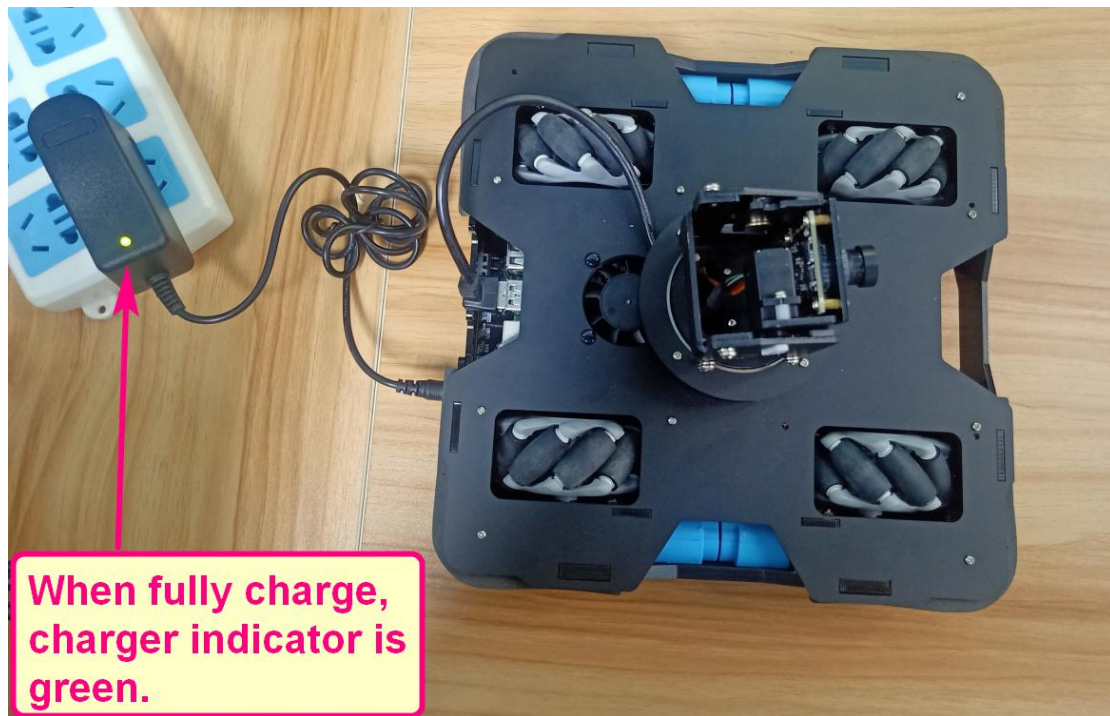

2) Insert charger into charging port expansion board. As shown below.

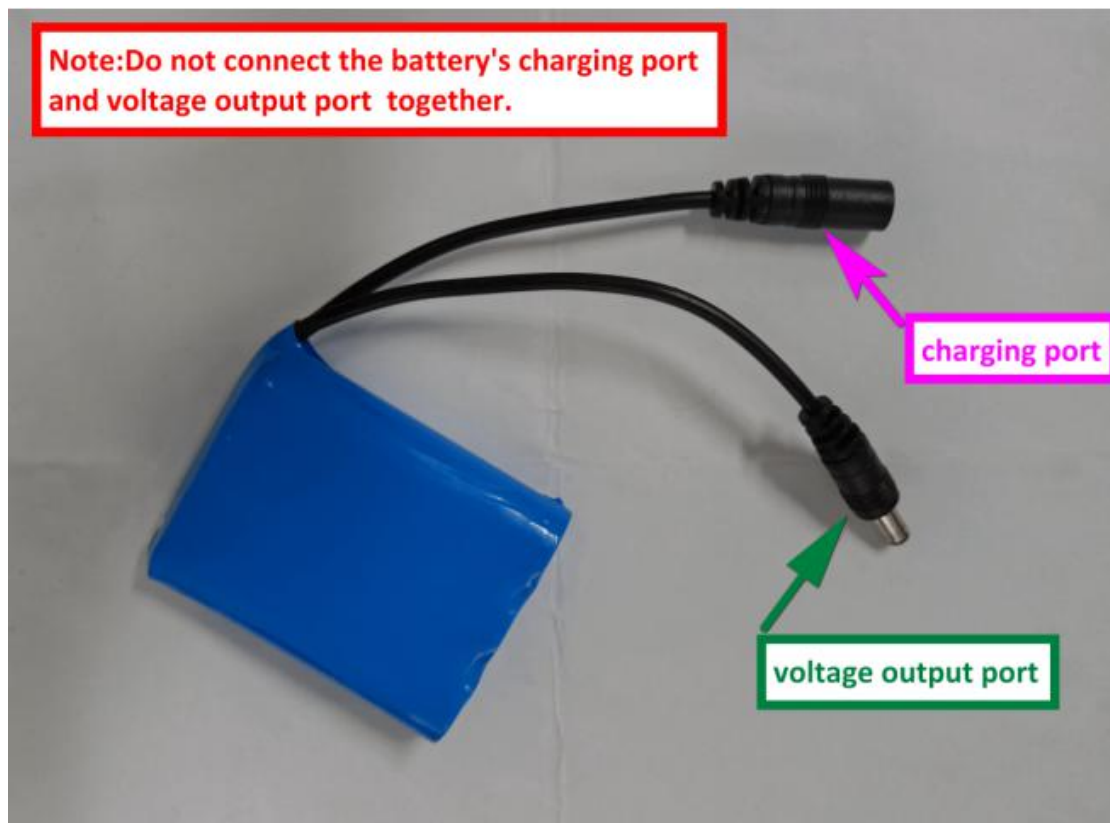

3) The state of the indicator during charging is shown in the figure below.

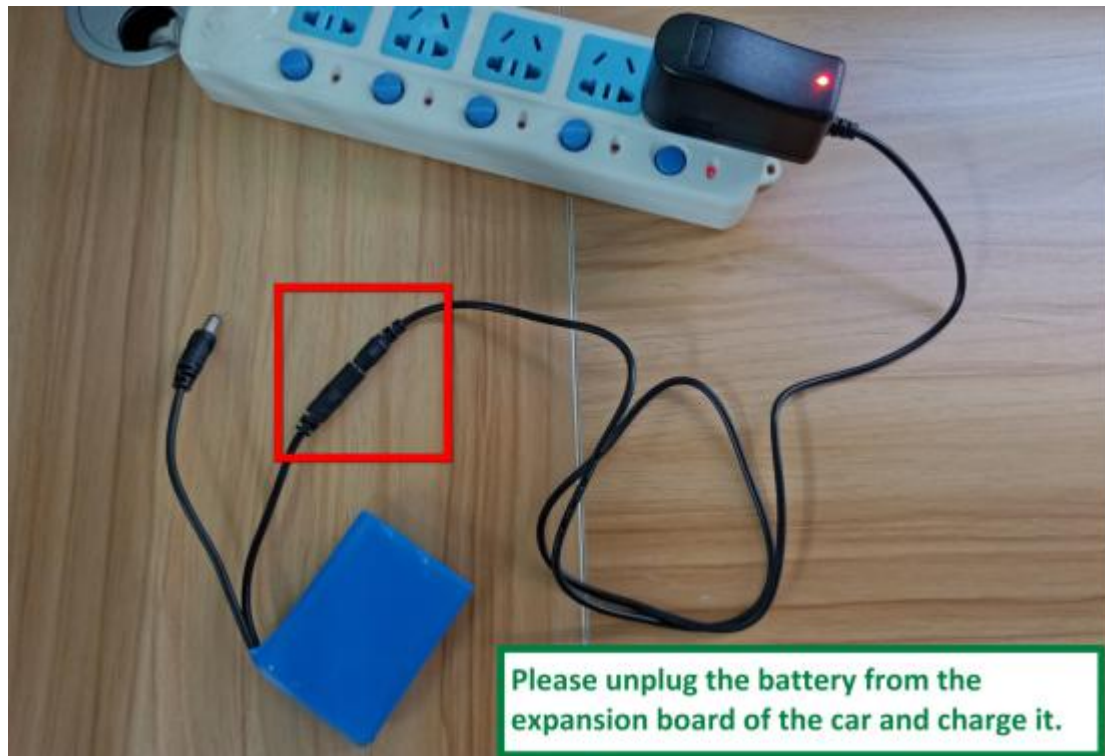

Method 2:

- 1) Remove battery to Raspblock car.
- 2) Insert charger into battery charging port. As shown below.

3) The state of the indicator during charging is shown in the figure below.

Charging is complete
